On Monday afternoon, June 11, 2012, the contractor will shift traffic from the existing I-35 northbound on ramp to the new I-35 northbound on ramp. The intersection of Robinson Street and North Interstate Drive will not be affected by this change in the on ramps. Additional questions may be directed to John Clink, Capital Projects Engineer, at 366-5424.

The I-35/Robinson Street Interchange Northeast Quadrant Project involves reconfiguring the northbound on and off ramps, a new traffic signal, drainage improvements and extending Interstate Drive from Robinson Street to Mount Williams Drive. Construction began on the project on Monday, April 2, 2011. The Oklahoma Department of Transportation is responsible for the construction of the project. The prime contractor is Silver Star Construction of Moore.
